About Me..

I am someone who enjoys finding out about a businesses, how it operates and how it can be improved through the analysis of it's financial health.

Having owned and operated my own businesses for 15 years, I truly understand the highs and lows of business ownership.

I believe that one of the main things big business has (that small businesses usually cannot afford) is to have dedicated staff who analyse and manage not just compliance but the performance of a business as well.

This is how Australian Business Breakthroughs came about, to help you **break through** the frustration of unclear finances and to empower you to improve your profits. Let me help you get back to running your business.
